ALA acquires STAG

17th June 2016

3

ALA – Advanced Logistics for Aerospace is pleased to inform you that ALA has completed today the formal acquisition of the UK based STAG Group, and its controlled companies: Spectech UK, Spectech France, Spectech US and Aircraft Components & Equipment Supplies. The acquisition had been announced on May 18th at the signing of the agreements which have been successfully executed today in London, at the verification of all closing conditions.

The acquisition of STAG reinforces ALA's worldwide position as a distribution and supply chain solutions supplier, providing enhanced coverage in the European market and a strengthening of the existing presence in the US, climbing the worldwide ranks up to the top 5 players. ALA is excited about the opportunity to expand its footprint, to accelerate growth and establish a leadership position in the distribution and supply chain services sector, globally.

The resulting larger group will better serve global customers and will offer new opportunities to all our partners. As a result of the business combination and geographical reach, our partners will now have access to a growing portfolio of products and services. The outgoing STAG shareholders will continue to cooperate with ALA throughout the transition phase to ensure business continuity.

Operationally it will be business as usual for you and all of ALA and STAG supply chain partners and customers. We look forward to continuing work with you and we will keep you updated for any relevant business news related to our company.

Sincerely,

Roberto Scaramella

About ALA:

ALA (Advanced Logistics for Aerospace) is a stocking distributor and provider of advanced logistics and innovative supply chain services and solutions to the aerospace industry. ALA has its main office in Naples-Italy with logistics plants and operating companies in Italy and in North America (Aerolyusa Inc. and Westbury Inc.). ALA group in 2015 registered 30% growth vs. 2014.

About STAG:

STAG Group, with its controlled companies, Spectech UK, Spectech France, Spectech US and Aircraft Components & Equipment Supplies is a stocking distributor and supply chain services provider for the aerospace industry. STAG has its branches in UK, France and US (Seattle). STAG also operates in the aircraft interiors manufacturing market, with the companies Race Completions and Flitetec; these are not part of the ALA acquisition and will continue to operate on a stand-alone basis.
